Professional Summary

Full-Stack Developer with 2+ years of hands-on experience building Flutter mobile applications and Laravel backend systems through independent projects. Experienced in RESTful APIs, Firebase, MySQL/SQLite, authentication, and scalable software architecture. Strong knowledge of Clean Architecture, SOLID, OOP, and modern development practices.

Professional Experience

Freelance Full-Stack Developer | Self-Employed | Sana'a, Yemen | Jan 2024 – Present

- Developed 5+ cross-platform Flutter applications and Laravel back-end solutions with RESTful APIs, authentication, database management, and Firebase integration
- Applied Clean Architecture, SOLID principles, and modern software engineering practices to build scalable, maintainable applications
- Managed source code using Git and GitHub, including version control and technical documentation

Academic & Personal Projects | Sana'a University & Personal Projects | Sana'a, Yemen | 2020 – 2024

- Built 10+ academic and personal software projects across multiple domains, including mobile, web, desktop, and database systems.
- Applied OOP, SOLID principles, design patterns, and software architecture best practices.

Key Projects

Hesabak | Self-Employed | Sana'a, Yemen | Jun 2025 – Present

- Developing a Flutter-based debt management application for tracking receivables, payables, and daily financial transactions.
- Designed an offline-first SQLite database with optimized queries for fast data retrieval, financial reporting, and balance calculation.

Masrofaty | Self-Employed | Sana'a, Yemen | Jan 2025 – Apr 2025

- Built an AI-assisted expense tracker with 10+ screens and smart expense categorization.
- Implemented local/cloud storage synchronization while keeping the app size under 15 MB.

E-Commerce Platform | Self-Employed | Sana'a, Yemen | Sep 2024 – Dec 2024

- Implemented secure authentication and RESTful APIs, managing 100+ products with scalable backend architecture.
- Built a full-stack e-commerce platform with 15+ screens, supporting product management, shopping cart, and order processing using Flutter and Laravel.

Eqark Almethali | (Graduation Project – Grade: Excellent) | Sana'a University | Sana'a, Yemen | Jan 2024 – Aug 2024

- Developed a Flutter real estate application featuring property listings, Google Maps integration, and location-based search.
- Utilized Firebase Firestore and MVVM architecture to enable real-time synchronization and efficient state management.

Technical Skills

- **Flutter Development:** iOS, Android, Web, Responsive UI, State Management (Provider, Bloc)
- **Back-End Development:** Laravel, ASP.NET Core, RESTful APIs, Sanctum, JWT
- **Programming Languages:** Dart, PHP, JavaScript, Python, C#, C++, HTML5, CSS3
- **Front-End Frameworks:** Bootstrap
- **Software Engineering:** OOP, SOLID Principles, Design Patterns, Clean Architecture, MVVM, MVC
- **Development Tools & AI:** Visual Studio Code, Postman, ChatGPT, GitHub Copilot, Claude, Gemini, Cursor, Antigravity
- **Development Methodologies:** Agile, Scrum
- **Databases:** MySQL, SQLite, Firebase Firestore, SQL Server, Oracle
- **Version Control & DevOps:** Git, GitHub, GitHub Actions (CI/CD), Docker, Linux
- **Testing:** Unit Testing, Flutter Widget Testing
- **UI/UX Design:** Figma, Google Stitch

Education & Certifications

Bachelor's Degree in Computer Science | Sana'a University | 2020–2024 | Grade: Very Good

Google Certificate: Data Mining with Python using Pandas

Training & Courses

Advanced Training: Full-Stack Development Web & Mobile use Flutter | YemenSoft

Courses : Laravel & Flutter Development | Udemy

Soft Skills & Additional Knowledge

Analytical Problem-Solving, Full-Stack System Design, Team Collaboration, Adaptability

ERP Systems: Trained in accounting and Enterprise Resource Planning (ERP) systems, including Onyx Pro ERP.

Languages

Arabic: Native

English: Intermediate
